	Job offer details : Technical Supply Chain Consultant

Recruiter	OMP OMP
Address	Rua Bandeira Paulista, 275 - cj 91
City	São Paulo - SP
Reference	24D1730893022
Title of the Offer	Technical Supply Chain Consultant
Description of the mission	As a supply chain consultant, you equip customers with supply chain planning solutions. You analyze planning challenges, assist in the solution design, implement and validate the solution, and ensure a smooth go-live. Customers rely on your support throughout the entire project life cycle.
	You are responsible for:
	Finding clever planning solutions in collaboration with our solution architects to ensure an impeccable, high-quality implementation.
	Implementing the solution from start to finish, together with the customer's project team.
	Providing expertise during and after implementation.
	Training customers so they get the most of their solution.
	Documenting the implemented solutions by providing technical descriptions to your fellow consultants and functional notes to the customer.
	Although you'll be visiting customers regularly (about 20% of your time), you won't be outsourced. In this way you remain rooted in our team of experts and consultants.
Type of contract	CDI
Teleworking	Tidak ada teleworking
Profile	Procurement / Logistics
Possibility of travel	Yes
Description of the company	We are OMP, a game changer that optimizes supply chains of the world's leading companies with our very own smart software and services.
	Do you enjoy solving complex supply chain problems? Are you passionate about adding value to Fortune 500 companies? Are you ready to become part of our global team of supply chain experts?
	If you answered yes, you might be the Supply Chain Consultant we're looking for.
Location	Itaim Bibi, Sao Paulo-SP
Location code	European Union
Country	Brazil
Profile description	We are looking for someone who meets the following qualifications:
	Strong analytical skills, preferably complemented with a Master's degree with a specialization in Production Management, Logistics, or similar.
	A strong affinity for IT as you need to be willing to learn an entirely new software package.
	Basic programming skills.
	The flexibility to travel.
	Fluent in English.
	A passion for working in a multinational customer-driven environment.
	A friendly and open attitude.
	A born team player.
